

## **Job Description – Automotive Fabricator**

### Summary Statement

The Automotive Fabricator builds fabricated parts and production tools and fixtures that meet functional requirements and variable cost targets.

### Description

The Automotive Fabricator will build fabricated parts and production tools and fixtures, performing layout and fit up from CAD drawings. The Automotive Fabricator will also perform GTAW and GMAW welding on carbon steel, stainless steel, and/or aluminum.

### Duties and Tasks Performed Critical to Success

The Automotive Fabricator must be proficient in working with thin sheet metal, thin wall pipe welding (e.g. exhaust), metal shaping, and general automotive fabrication. The Automotive Fabricator will also assess, propose, and implement improvements to manufacturing methods and processes.

### Key Functional and Relational Responsibilities

- Build fabricated parts from mild steel, stainless steel, and aluminum
- Build production tools and/or fixtures
- Meet quality, cost, and production targets
- Assist in developing engineering designs and implement engineering changes
- Collaborate with manufacturing and supply chain management to ensure an adequate supply of fabricated parts to meet production requirements

### Relationships and Roles within the Company

The Automotive Fabricator will report directly to the Body supervisor and will work closely with the engineering, manufacturing, and supply chain management teams.

### Qualifications

The candidate will have GTAW and GMAW certification and 2-5 years' experience in a manufacturing environment, preferably automotive. Must be able to read blueprints and use precision measuring equipment. An interest in/knowledge of automotive body construction is a plus.

### Company Description

Revology Cars manufactures and distributes a lineup of new reproduction 1960s Ford Mustangs and Shelby GTs featuring modern powertrains, suspension, brakes, safety, and comfort/convenience features. Launched in 2014 by a former Ford Motor Company executive, Revology has secured financial backing from a prominent private equity group. The company is an authorized licensee of Ford Motor Company and Shelby American.

### Compensation

Compensation will consist of a competitive hourly wage and an annual performance bonus, based on achievement of objectives. The company provides a health, dental, and vision benefits plan to all full-time employees.
