LeMANS STRIPES

LeMans stripes were an option on the 1966 Shelby GTs, although most cars had them. They were installed both at the factory and by dealers. On Revology Shelby GTs, the stripes are laser-aligned and applied to the front valance, stone deflector, grille support, hood, cowl, roof, trunk filler panel, decklid, taillamp panel, and rear valance. After base coat, three coats of gloss clear are applied, leaving no perceptible transition between stripe and body color

INTERIOR

SEATS AND TRIM

Revology Shelby seats are designed and built in-house to deliver modern comfort and lateral support while providing an authentic appearance. Front seats are equipped with power fore/aft and manual recline. Seats and interior trim panels are covered in premium OEM automotive grade vinyl or OEM automotive leather which offers superior abrasion resistance and protection from sun loading
