

RETAIL ORDER GUIDE - 2023 MODEL YEAR 1967 MUSTANG GT / GTA 2+2 FASTBACK

New for 2023, the Revology 1967 Mustang GT and GTA models artfully blend authentic styling with modern functionality. Revology's 1967 Mustang GT and GTA models follow the formula Ford used over 50 years ago, as the automaker revamped its highly successful 'pony car' to face new rivals such as the Chevrolet Camaro and Pontiac Firebird. Ford applied the 'GT' designation to manual transmission Mustangs, while automatic versions were badged 'GTA'. Revology carries on this tradition with its GT and GTA models. The Revology 1967 Mustang GT and GTA models are built on the same M58 platform as all other Revology models and therefore benefit from the extensive engineering and development work completed to date.

CHASSIS

- STD CHASSIS w/ STEEL FRONT SUBFRAME** N/C
The standard chassis configuration on all 460hp 5.0L Ti-VCT V8 Revology Mustangs and Shelby GTs features a steel front subframe with double wishbone front suspension and 3-link rear with torque arm and Panhard rod for lateral stability. The standard chassis provides excellent handling without sacrificing ride comfort. 12.88" slotted and ventilated rotors w/ 6 piston front calipers and 4 piston rear ensure excellent stopping power on the street or track
- OPT CHASSIS w/ ALUMINUM FRONT SUBFRAME** \$ 14,025
The aluminum front subframe chassis configuration is standard on all 710hp supercharged V8 Revology Mustangs and Shelby GTs and optional on 460hp naturally aspirated cars. The high strength, light weight aluminum front subframe and external oil cooler allow the engine to be located lower in the chassis for a lower center of gravity while providing room for the supercharger. The external oil cooler features a temperature sensor with the readout integrated in the instrument cluster. The front suspension is a double wishbone design with an adjustable sway bar and C6 Corvette hubs for durability and light weight. The rear is a 3-link with torque arm and Panhard rod for lateral stability. The coilovers feature Hypertech springs and JRI nitrogen-charged dampers. Standard front brakes feature 6-piston calipers and 13.06" slotted and ventilated rotors; rear brakes have 4 piston calipers and 13" slotted and ventilated rotors with integrated parking brake
