LeMANS STRIPES

LeMans stripes were an option on the 1966 Shelby GTs, although most cars had them. They were installed both at the factory and by dealers. On Revology Shelby GTs, the stripes are laser-aligned and applied to the front valance, stone deflector, grille support, hood, cowl, roof, trunk filler panel, decklid, taillamp panel, and rear valance. After base coat, three coats of gloss clear are applied, leaving no perceptible transition between stripe and body color. NOTE: Painted LeMans stripes are included in the GT350 Hertz™ package
