

## RETAIL ORDER GUIDE - 2026 MODEL YEAR 1968 MUSTANG GT COBRA JET™ 2+2 FASTBACK

Midway through the 1968 model year, Ford introduced the 428 Cobra Jet as a 1968.5 model. The 428 Cobra Jet was at the time the most powerful engine ever produced by Ford. Likewise, Revology's Cobra Jet is the most powerful engine ever offered in a Revology Mustang. Identical to the 710hp supercharged 5.0L Ti-VCT 'Coyote' V8 featured in the Revology Shelby GT500, the Cobra Jet features the same aluminum front subframe, cooling system, external oil cooler, exhaust, and heavy-duty driveline as the GT500, along with a unique domed fiberglass hood for clearance (hood-mounted turn signal indicators are deleted). Available with manual or automatic transmission. The Revology Mustang GT Cobra Jet captures the style and character of the original with improved performance, drivability, reliability, comfort, and safety.
